

## PLEASE FOR ARMENIA BEFORE THE Y.P.S.C.E. EARNEST SPEAKERS ADDRESS WASHINGTON GATHERINGS.

**Last Day of the Great Meeting at the Capital—Perfect Weather Favors the Convention for the First Time—Visitors See the City at Its Best.**

Washington, July 14.—The Illinois Christian Endeavorers are enjoying their visit most thoroughly, and finding it a profitable one. Illinois is well represented in the convention, 844 members of the society having registered at the Foundry church. State President C. W. Stewart of Mackinac, estimates that there are 200 more in the city who have not yet registered.

For the last day of the convention of the International Christian Endeavorers the weather was all that could be expected in the midst of summer. The skies were clear, and although the sun shone warmly, the heat was nicely tempered by a smart north-west breeze that made the bunting and streamers on the big tents and along the streets and avenues stand out bravely and encouraged thousands of the visitors to venture from their church headquarters and tents between services on short visits to see the sights of the city, which they had been prevented from reaching before by the protracted spell of bad weather.

The animating purpose of the committee in arranging the program for the last day had been to wind up with a genuine revival effort and to this end "Consecration" was the keynote of the day's work.

The early morning prayer meetings in the thirty-odd churches which form the rallying points of the various state delegations were devoted to this topic. For the benefit of the Endeavorers who had breakfasted early, and were ready and eager to begin the day's work, President G. S. Burroughs, D. D., of Crawfordsville, Ind., conducted a Bible book study in the New York Avenue Presbyterian church at 8:30 o'clock. The topic was chosen from First Corinthians, "Practical Christianity." This consumed the time up to the opening of the big tents for the forenoon services.

In two of the tents the world's union of the Society of Christian Endeavor controlled the whole of the morning program, while in the third suffering Armenia offered the sole topic of discourse, so that in no case did the purely national union figure in the morning proceedings. The day's exercises were thus relieved from any appearance of monotony by the contrast with what had gone before, and the congregations listened with interest to the foreign speakers, with their strange names and peculiar accents.

In Tent Washington the Armenian relief movement had full sway, and the committee availed of the opportunity presented by a numerous audience to put forward their strongest and most persuasive speakers to secure promises and pledges of pecuniary aid and moral support for their cause. Rev. Wayland Hoyt, of Philadelphia, presided. A feature of the proceedings in this tent was the addresses delivered by Rev. B. Fay Mills, Fort Edward, N. Y., in which he treated the Armenian question from its aspect as an international affair and gave his views as to the proper attitude of the United States toward it. In the course of his speech he made hostile allusions to United States Minister Terrell because the latter had advised the withdrawal of the American missionaries from points of danger in Armenia, and criticised bitterly the president and the administration for failing to interfere in Turkey while, as he alleged, fomenting a quarrel with Great Britain over Venezuela.

President Clark presided over the meeting in Tent Williston, which was addressed by Rev. Joseph Brown Morgan, of England, Rev. Jesse M. Yonan, of Persia, Rev. George P. Goll, of Africa, and J. G. Hildner, of Germany.

In Tent Endeavor, Treasurer William Shaw, of Boston, presided, and the speakers were Rev. Arnold Streull, of England, S. C. K. Putnam, of India, Bishop J. M. Thoburn, of India, Rev. W. H. Towers, of England, and Rev. H. S. Jennanyan, of Armenia.

A feature of the proceedings in this tent was the presentation on behalf of the national trustees, of a beautiful red, white, and blue banner to Mr. Shand, chairman of the entertainment committee, as a token of appreciation of the hospitality with which the local union has received the visiting delegates.

The members of the various committees which have done so much to make the convention a success, headed by Chairman W. H. H. Smith, were brought forward in each tent and introduced to the audience in appropriate remarks by the presiding officers.

After the adjournment of the morning sessions there occurred the evangelical session which was held in the Central Union Mission, under the conduct of Ira D. Sankey of Brooklyn, and for the convenience of the visitors, a number of services of like character were conducted under the arrangements of the local committee and churches in various parts of the city.

**Arkansas Populists for Bryan.**  
Little Rock, Ark., July 14.—Leading populists who have been interviewed on the subject, are of the opinion that

the national convention of the People's party will endorse the ticket selected by the Chicago convention. The state convention of the Populist party meets here Wednesday and many of the leaders who will take part in the convention express themselves as satisfied with Bryan. They say, however, that the Populist organization will be maintained.

## BASEBALL REPORT.

**Games Played in the National League Yesterday.**

Yesterday was the day allowed Captain Tebeau to pay his fine. He has not paid it. Manager Irwin and Captain Gleason of the New Yorks were served with the injunction obtained by President Robison before the game began, as was Umpire Hurst. Irwin said at first that he would not play the game with Tebeau in it, whereat Deputy Sheriff Stegkemper said he would have to arrest him for contempt of court. Irwin concluded he would play, but would protest the game. The Clevelanders played a poor game, and New York won it in the fifth, while it was raining. The umpire called the game. Other contests resulted as follows:

**Cleveland May Write a Letter.**  
Washington, July 14.—It is rumored here that President Cleveland is engaged in writing a letter to his friends giving his views as to the proper course for "sound-money" democrats to pursue under existing conditions, and that it will be made public in a few days. The rumor cannot be verified at this end of the line, but there are many officials in the departments who hope that it is true. They are becoming restive under the continued strain of silence and uncertainty. Should the president announce his purpose of bolting the democratic ticket, there will, they say, be a rush of officials to follow his example.

**Steamer Three Friends Back.**  
Jacksonville, Fla., July 14.—The filibuster steamer Three Friends returned to this port Monday. Captain Bruard gives a very interesting account of his last voyage, including a number of narrow escapes from the enemy's cruisers. The expedition, which was successfully landed on the Cuba coast, was composed of 100 men under Colonel Perico Terres. The vessel also carried a large cargo of arms and supplies. The Three Friends has landed five expeditions in Cuba.

**Rudini Still Cabinet Making.**  
Rome, July 14.—Two Cabinet councils were held Monday, at which were present all the members of the Cabinet except General Ricotti, whose resignation as Minister of War precipitated the crisis, and Signor Perazzi, Minister of Public Works. The Don Chisciotte Della Mancia says the ministers are not in accord on the subject of the increase in the army estimates, and that this is likely to prolong the crisis. The Opinion believes the ministry will come to a final decision today.

**Against Co-operative Plans.**  
Alton, Ill., July 14.—At the morning session of the American Flint Glass Workers' convention the committee on co-operative plants brought in an unfavorable report. There were several applications to start co-operative plants, and all of them went down with the majority report unfavorable thereto. Secretary Kunsler's wage report showed that Alton has the largest flint glass plant in the country. The Alton factory paid \$171,304 in wages last year, while the largest competitor was \$50,000 lower.

**Insurgent Expeditions Land Safely.**  
Key West, Fla., July 14.—It is now known that the insurgent expedition under General Rafael Portuondo effected a landing at Tamayo. This expedition brought for the insurgents a large quantity of ammunition and dynamite, two cannon, and 3,000 uniforms. It is also reported that two other expeditions have landed, one near Baracos and the other at the Barrigua Beach, between Yumuri and Mata.

**China Buys Cannon and Rifles.**  
London, July 14.—The Brussels correspondent of the Times says the papers there state that Li Hung Chang placed large orders for cannon and Cockerell rifles at Herstal and Liege, and also asked the Cockerells to establish in China a steel foundry managed by Belgium.

## NOW FOR MILWAUKEE AND THE BAPTISTS YOUNG PEOPLE'S UNION HAVE WORK PLANNED.

**Twelve Thousand Delegates and Many Visitors Expected to Be Present on the Opening Day, Thursday—Phenomenal Growth of the Organization Since it Was Founded.**

Milwaukee, Wis., July 14.—The city of Milwaukee is the center toward which the Baptists of the United States and Canada are turning attention, as the Baptist Young People's Union of America will hold its yearly meeting in the exposition building, beginning Thursday, and lasting four days. It is expected that not less than 12,000 delegates and visitors from abroad will attend.

The enthusiasm of the hour with the Baptists, as with all other evangelical denominations, is the young people's movement, although the young people's society is not modern with them. There are over 3,500 Christian Endeavor societies, and between 4,000 and 5,000 young people's societies of other names in the denomination—the latter commonly called Young People's unions. The Baptists are largely enlisted in the inter-denominational fellowship of Christian Endeavor, but this does not preclude their having a young people's denominational society of their own. The Baptist churches of Brooklyn, N. Y., organized in 1877 the "Young People's Baptist union" of that city, a fraternal union of the local young people's organizations in the Baptist churches of Brooklyn.

State conventions of the Baptist young people's societies began to be organized in the 80s, but the great inspirational point of the work in the denomination was when the Baptist Young People's Union of America was organized at Chicago, July 7, 1891. It was a great outpouring of people, where 2,900 were enrolled as delegates and visitors. Nine state unions were represented. The Canadian Baptists sent delegates, and also the Baptists of the south. The body was an international gathering.

The growth of the organization has been phenomenal. Its second convention at Detroit in 1892 had over 4,000 as its enrollment. The other conventions, Indianapolis, Toronto and Baltimore, have been attended by increasing thousands. The Monumental City last summer was overrun with Baptists, when some 10,000 visited Baltimore.

John H. Chapman of Chicago is president, a position which he has occupied since the body was organized. Frank L. Wilkins, D. D., is the general secretary.

## INCREASE IN SHIPBUILDING.

**What Is Shown by the Report of the Navigation Bureau.**

Washington, July 14.—The report of the navigation bureau shows that during the year ending June 30, 1896, 709 vessels of 204,000 gross tons were built in the United States, and officially numbered by the bureau of navigation, compared with 682 vessels of 133,000 tons for last year, an increase of 71,000 tons. Steam vessels built numbered 322 of 135,000 tons, compared with 283 of 75,700 tons for the previous year. Steel as chief material of construction has increased to 106,900 tons, from 47,700 tons for the previous year. Nearly three-fourths of the steel tonnage was built on the great lakes. The tonnage built and numbered on the great lakes was 104 vessels of 92,000 tons, compared with 93 vessels of 38,000 tons for the previous year, which indicates also the rapid increase in size of the vessels of the lake fleet.

**Hibernians Gather at Detroit.**  
Detroit, Mich., July 14.—Green badges and ribbons are numerous in Detroit. They are worn by members of and delegates to the national convention of Ancient Order of Hibernians, which opened in the Catholic Club's building at noon. Nearly 300 delegates and fully 1,000 visitors to the convention have arrived and the number is expected to be trebled tomorrow. The officers of the grand body who are present are: P. J. O'Connor, president, Savannah, Ga.; John C. Weadock, vice-president, Bay City, Mich.; M. J. Slattery, secretary, Albany, N. Y.; Thomas J. Dundon, treasurer, Columbus, Ohio; Morris F. Wilhere and James Jackson, Philadelphia; Edward Sweeney, Cincinnati, and John M. Clarke, Milwaukee, directors.

**Jones Goes to Washington.**  
Chicago, July 14.—Senator J. K. Jones, chairman of the new Democratic national committee, left for Washington yesterday afternoon. Before going Chairman Jones appointed Charles A. Walsh of Iowa temporary secretary of the national committee. There is no doubt that the national committee will ratify Chairman Jones' selection of a secretary at the first regular meeting, and Mr. Walsh will succeed S. P. Sheerin as secretary of the national committee.

**Most Unite Against America.**  
Madrid, July 14.—Senor Sagasta, former Prime Minister of Spain, in an interview on the subject of suggested alliances, declared that Europe's energies must be exerted to maintain its policy as against the policy recently developed in America.

## GOLD MEN WILL NOT STAND BY BRYAN ATTEMPT TO BE MADE TO FORM A NEW PARTY.

**Democrats Who Dislike the Platform of the Recent Democratic Convention Will Call Another—New Ticket to Be Put in the Field As Soon as Possible.**

Chicago, July 14.—As announced a week ago, the gold democrats of the country will not only refuse to support the nominees and the platform of the Chicago convention, but will place a "sound-money" democratic ticket in the field. Chicago, St. Louis and Cincinnati are the places most favored for a "sound-money" democratic national convention, and Henry Watterson of Kentucky is mentioned as the ideal candidate on a "sound-money" platform for president.

Although the leaders of the delegations from the eastern states were very guarded while attending the convention last week in talking about the possibility of a second national ticket being named, it was well known that the great majority of the delegates favored such a course. As for the western and southern states, where the party organization has been wrested from the hands of the goldites, the feeling in favor of a third ticket is even stronger than in the east.

The advocates of a "sound-money" national ticket do not make the claim that they will win, they do not expect success, but their position is that this will be the easiest method by which they can strike a blow at the silver heresy and its champions, and bring about the election of McKinley and the adoption of the "sound-money" republican platform.

The fight will be made mainly in the southern states. The gold democrats believe that with some southern man like Henry Watterson at the head of their ticket they could break into the solid south and aid McKinley in capturing several of them. A third ticket might give Maryland, West Virginia, Kentucky, Tennessee, Texas, Alabama, North Carolina, and Delaware to the republicans.

## CZAR IS OBSTINATE.

**American Naturalization Papers Can Not Save Native Russians.**

Washington, July 14.—The greater portion of the labors of Mr. Breckinridge, minister to Russia during the past year, as revealed by the published foreign relations of the United States, seem to have followed an instruction from the state department to protest against the practice of Russian consuls in the United States of refusing to visa passports of American citizens going to Russia if they happened to be of the Jewish faith.

At the point where the publication closes he was obliged to bluntly inform the Russian government that the United States could not acquiesce in the operation of such foreign tribunals in the United States. Mr. Breckinridge's presentation of his case was formally approved by Secretary Olney. As the matter stands at the end of the correspondence so far published the Russian government rests firmly for its right to punish Russians who become United States citizens if they return to Russia. Meanwhile Mr. Breckinridge prudently suggests that proper warning be given to Russians naturalized in the United States to keep away from Russia.

## Judge Lynch May Hold Court.

Sullivan, Ind., July 14.—Bill Johnson coolly and deliberately walked up to Fred Medaris Monday night while the streets were crowded and fatally shot him, and then made good his escape. Johnson, a barber, had until late been in the employ of Medaris, but was discharged. Meeting Medaris on a street, without warning Johnson opened fire, emptying his revolver. Johnson, two shots taking effect, was taken to the hospital. Johnson has served a term at the reformatory at Plainfield. Officers are scouring the country for him and should he be captured he will have small chances of being tried by jury.

## Two Tickets Set in Delaware.

Dover, Del., July 14.—The Addicks wing of the Republican party in this state are holding a convention today and will nominate John H. Hoffecker for governor, Jonathan S. Willis for congress, and J. Edward Addicks, of New Castle, D. M. Wilson, of Kent, and Daniel J. Forks, of Sussex, for electors. The "regular" party, headed by Higgins men, will meet at Georgetown on Thursday. Mr. Addicks has announced that, in view of the fact that the United States constitution prohibits a man from being an elector and also a United States senator, he is not a candidate for the former office.

## Spaniards Report Successes.

Havana, July 14.—The insurgent, Carillo, with a force of 2,000 infantry and cavalry, has marched westward past Nazareno and Remedios, taking with him many mules laden with ammunition. It is thought that he is now retreating in the direction of Sancti Spiritus or Trinidad, in consequence of having been routed at Tarran. Advice from Santiago de Cuba report that an engagement has been fought between Spanish troops and insurgents under Jose Maceo, in which Captain Monzon and other of the Cuban leaders were killed.

## TRIED TO SHOOT FAURE THROUGH A BRIDGE INTO DEEP WATER.

**Would-Be Assassin Aims a Bullet At The French President During a Review.**

Paris, July 14.—While reviewing the troops at Longchamps today President Faure was shot at by an assassin. The bullet missed the mark, and the president's assailant was put under arrest. He is believed to be insane.

## NAMES HIS HELPERS.

Mr. Hanna Appoints the National Executive Committee.  
Cleveland, Ohio, July 14.—M. A. Hanna Monday announced the national executive committee as follows: M. A. Hanna, chairman, Cleveland; William M. Osborne, secretary, Boston, Mass.; General Powell Clayton, Arkansas; Charles G. Dawes, Illinois; W. T. Durbin, Indiana; Cyrus Leland, Kansas; Joseph H. Manley, Maine; M. S. Quay, Pennsylvania; H. C. Payne, Wisconsin; N. B. Scott, West Virginia. The ninth member not yet chosen.

In regard to the ninth member to be appointed there is considerable speculation as to which state will be honored with the selection. Some of the Cleveland Republicans think that Senator Thurston of Nebraska will be asked to reconsider his declination of a place on the committee, since Bryan of his state has been nominated by the Democrats. Others are of the opinion that Mr. Hanna will appoint a New York man to the place, and ex-Senator Platt is mentioned in that connection. It was said at the headquarters that the announcement of the other appointee would be made within a day or two.

The first meeting of the committee will be held at Mr. Hanna's office—the McKinley headquarters—at 10 o'clock Wednesday morning. Preliminary business only will be transacted at that session. In the afternoon the committee will probably call on Major McKinley at his home in Canton, and confer with him regarding the methods to be adopted during the campaign.

## HILL SAYS NOTHING.

**Will Probably Soon Issue a Statement to New York Democrats.**

Albany, N. Y., July 15.—David B. Hill told a correspondent, who called upon him Monday that he must persist for the present in his determination not to make any public utterance regarding the work of the Chicago convention. He declared that since his return from Chicago he had not had any conversation with newspaper men, and therefore all alleged statements presuming to emanate from him with reference to the probable program to be followed by the "sound-money" democrats were purely imaginary.

In due season it is understood to be Mr. Hill's intention to issue a statement for the guidance of the anti-silver democracy of the Empire state. According to the story current in political circles here, it is believed that on his way home from the convention on Saturday, Senator Hill and other democratic leaders in his party agreed that it would be unwise to aid in the nomination of another president.

## WANT A NEW TICKET.

**Illinois "Sound-Money" Democrats Make an Appeal.**

Chicago, July 14.—A demand that another "sound-money" democratic ticket be nominated for the coming year was made by the Illinois "sound-money" democrats. It was a "sound" appeal of the Illinois sound money men, well and good. If sound Illinois men will fight their not, they will run an independent campaign in this state. The position taken by the Illinois sound money men and their reasons for so doing set forth in an address to the fellow Democrats of the nation, issued by the state advisory committee of the "sound money" democracy. The movement for an independent ticket is opposed by many leaders of the party.

## Arranging for the Notification.

Chicago, July 14.—The subcommittee of the committee on notification of the candidates of the recent convention here met yesterday and conferred with the nominees as to the time and place of going through the formality of notifying William J. Bryan, of Nebraska, and Arthur Sewall, of Maine, that they have been nominated by the Democratic convention for president and vice-president, respectively. No definite arrangement was made as to the time of the ceremony, but it was agreed that the notification should take place in New York City, and it was suggested that some day in the second week in August would be a convenient date for all concerned.

## Glass Bottle Blowers Meet.

Streator, Ill., July 14.—The Glass Bottle Blowers' Association of the United States and Canada met in annual convention in this city Monday. President Troth, of Millville, N. J., presiding. The committee on prices have been at work but the result has not yet been made known to the convention. "Later the wage committee will meet a similar committee from the manufacturers at Pittsburg, when the final settlement will be effected. The convention will remain in session a week or ten days.

## Brooklyn Church Destroyed.

New York, July 14.—The Roman Catholic Church of the Visitation, Brooklyn, with contents, was totally destroyed by fire last night.

## OSHKOSH THE SCENE OF A STRANGE WRECK.

**Wisconsin Central Freight Engine Crashes Through Bridge Timbers and Drops into the River With Two Cars—Engineer Sticks to His Post But Escapes Alive.**

Oshkosh, July 14.—A north bound freight train on the Wisconsin Central road, jumped the track while crossing a bridge here early this morning, and the engine and two cars crashed through the ties into thirty feet of water. The fireman, George Larimer of Waukesha, escaped by jumping and clinging to a rod; but Engineer Henry Eaton, also of Waukesha, stuck to his post until his engine was in the river. He escaped from death by a miracle, but he has a broken shoulder, and one ear is torn off. The loss to the company will be several thousand dollars.

## Should Be Located at Chicago.

Milwaukee, Wis., July 14.—Henry C. Payne, of the Republican national committee, left Monday for Cleveland to attend a meeting of the executive committee of that body. Mr. Payne favors the removal of the national headquarters from New York to Chicago, and believes that, inasmuch as the battle will be mainly fought in the west, the change to Chicago will be made.

## ONE KILLED; SEVERAL INJURED.

**Passenger Train on the Lehigh Valley Derailed by Striking a Cow.**

Hazleton, Pa., July 14.—A passenger train on the Lehigh Valley between White Haven and this city ran into a cow Monday afternoon and the engine and three cars toppled over the ridge of a high embankment. Engineer William Douder received injuries from which he died shortly afterward. Barney Mooney, the fireman, was seriously injured, and more than a score of passengers were badly hurt, several of whom will die. The most serious injured are:

Many of the passengers were severely scalded by escaping steam. The train left White Haven at 2 o'clock. It was running at a high rate of speed at the time. A relief train was sent from here with physicians to attend the wounded.

## WANT BOTH METALS.

**British Bimetallic League Holds Its Annual Meeting.**

London, July 14.—The Bimetallic League of Great Britain held its annual meeting Monday in the Canon Street Hotel. The annual report declares that the cause of international bimetallicism has made substantial progress during the year, both in Great Britain and abroad. It mentions the resolutions adopted by the Chamber of Deputies in France, the Chamber of Representatives in Belgium, and the Prussian Diet, declaring for bimetallicism, and continues:

"In the United States all parties and classes would welcome international bimetallicism. A large section of the people there, however, are so strongly convinced of the urgent necessity for the remonetizing of silver that they are indisposed to wait for international agreement. No party of any importance in the United States favors gold monometallism.

"The responsibility for the present and growing dangers to the industrial life of the nation rests upon those who oppose that monetary system under which our prosperity advanced by leaps and bounds."

## Dominion's New Cabinet.

Ottawa, Ont., July 14.—The following is the new cabinet: President of the Council, Hon. ## MANY NOTED NAGS WILL RACE HERE

FINE SPORT TO BE OFFERED  
NEXT WEEK.

Richard Curtiss, "the Boy Driver of the Blue Grass State," "Papa" Fuller and Other Well Known Reinsmen are Coming—Famous Animals Will Meet in Conflict.

The declaring off of the races at Lake Geneva, which were to have been held this week, caused an influx of trotters and pacers last night. A special train of eighteen cars arrived about 9:30. The stables came directly here, and the animals will be trained here until the Janesville meeting.

It is advertised that Joe Patchen, the greatest pacer that ever wore a harness, will pace an exhibition mile. Two additional races have been added since the publication of the entry list in The Gazette. No. 17 is the Futurity stake, Wisconsin Breeders, Foals of 1894. No. 18 is the 2:24 class trotting and pacing for local horses to be named.

Well Known Horses to Go Here.

Noted horses and noted drivers will compete in the races at the Janesville track next week. July 21 to 25 are the dates, and the meeting promises to be the most successful in the history of this racing town. Among the noted stables are those of Richard Curtiss, the "boy driver of the Blue Grass State." Mr. Curtiss is one of the youngest men in the profession, as well as one of the most successful. The fastest horse he has entered, is Miss Nelson, who is entered in the 2:12 trotting class. His stable is quite a large one, and is now at the track, coming here direct from Joliet. Mr. Curtiss' home is at Lexington, Ky., probably the best known "harness horse town" in these United States.

"Papa" Fuller's Stable.

"Papa" George A. Fuller, the grey haired veteran of the sulky, also has several entries, and his stable, as usual, is a high class one. Mr. Fuller's grizzled beard and tanned face are familiar to Janesville enthusiasts, and he will probably uphold his reputation for "uncovering something good" before the meeting is over. Mr. Fuller's home is at Lincoln, Ill., and his principal coup, at the Janesville track last year, was the winning of the 2:45 class pacing purse with Pearl, a little pacer owned by a dealer, Lincoln, Ill., who covered her a full 2:11 and distancing half a dozen horses. This year Mr. Fuller is handling Pearl C., but he has the 2:12 and ones. His entry in the noted son of Baron Dillon, the other Wilkes.

M. E. McHarg's ones.

"demon of the home Freeport, the several entries, as well as Gerry, the Oshkosh, also has J. O. is known to fame as "demon" who can tell when it is going to rain because of the ache in the rain he had broken at the Janesville der some years ago, will also be with his stable. John Labbe, Oshkosh, who used to be sheriff of Winnebago county, also has several entries, and will be down to see his flyers go. The stable from the noted Hill stock farm, of Dallas, Texas, will also be here headed by the noted 2:08 class pacer, Judge Hurt and the 2:12 class trotter, Queen Alfred.

V. L. Shuler, the noted Minneapolis horseman has several entries, and will drive Bon Ami in the 2:12 trotting class, as well as a number of others with slower records.

Come From All Sections.

Other stables are entered by Otto Schultz, of Manitoba, Canada; Frank S. Trask, of Independence, Iowa, who names the phenomenal pacer, Flak; W. L. Freeman, Chicago; the Oak Lawn farm, Menominee; The Elwood Farm, De Kalb, Ill.; J. W. Simms, Fulton, Mo.; W. O. Foote, Alton, Ill.; S. C. Fuller, Sedalia, Mo.; Rhody Patterson, of Cleveland, O.; J. F. Callway, of Louisville, Ky.; Samuel Morgan of Lexington, Kentucky; W. H. Hutchings, Muskogee, Indian Territory; J. H. Pullman, Windsor Ontario, Canada; George C. Loomis, Minneapolis; W. H. Boyce, Terre Haute, Ind., and many others whose names are familiar to the admirers of the harness horse.

Wisconsin Is Represented.

The Badger State is liberally represented among the entries. The Wisconsin men who have entries are J. O. Gerry of Oshkosh, whose fastest animal is Ringrose, entered in the 2:12 pacing class; John Labbe, of Oshkosh; D. Hammel of Appleton; W. W. Van

TAKE CARE! (Trade-Mark). Dr. Hobbs' Little Liver Pills don't gripe. Only 10 Cents a Box.

Sant, of Berlin, who has Marble in the 2:12 trotting class; Frank Ayers, of Burlington; J. W. Brown, Neenah; H. J. Macomber, of New Lisbon; Henry Cheesman of Clinton, owner of Abner, the phenomenal colt of last year, now entered in the 2:12 trotting class; H. E. Terry, Appleton; Don Darling, Burlington; Dr. Rowland, Oshkosh; L. L. Leffingwell, of Columbus, who trained his 2:12 pacer, Capt. W., on the Janesville track this spring; J. G. Sherman, of Lake Geneva, who enters the well-known Phallamont horse, Virginus; McCormick & Flatley, Green Bay; W. S. Getting, Stevens Point; H. J. Killilea, the well known Milwaukee lawyer, and J. A. McLeod of Milwaukee.

"Tom" Dunbar Not Coming.

Several drivers who are well known to Janesville people will be present, but there is one who will probably be absent. He is "Tom" Dunbar, who used to handle the Oak Lawn farm stable, and drove Vera Capelle in all her winning races last year. Dunbar is no longer handling the Tainter stable, and his cheery voice will probably be missed by his many friends.

Joe Bassett, however, will be with us. Mr. Bassett is one of the oldest men in the business, and handles Abner. When Bassett drives the phenomenal Clinton horse, it is a case of January in the sulky, and June between the shafts. Abner is but a colt, but Bassett is an "old stager." Gerry, Fuller, West, Shuler, McHenry, Patterson, Van Sant, Grimes, Callway, Castle, Pahlman, Leffingwell, Turner, and many others, are all well known here.

Three Fast Races.

Of course the interest is greater in the three fastest races—the 2:12 trotting and the 2:12 and 2:08 pacing classes. The time in the races may not be as fast as in some of the slower classes, as was the case last year, but yet the average person expects the best race in the fastest class. In the 2:12 trotting class there are ten good horses. First on the list is Selina F., the game mare, whose hot contest with Kate Phallamont last year, is well remembered. The next one is Miss Nelson, Richard Curtiss' entry. She is a speedy animal and was much touted last year. Third is "Little Abner," and the sympathy of all Janesville people will go into the race with her. Abner, however, is not yet as "good" as he was last year, although she is said to be "rounding to." The others are Pilatta, Baron Dillon, Bon Ami, Russellmont, Marble, Bertie R. and Queen Alfred, most of whom have been seen here at different times.

The 2:12 Pacing Class.

The 2:12 pacing class will bring together Ringrose, New Era, Captain W., Bright Light, Almont Bashaw, Hydrogen, Red Leaf, L. L. D., Ithuriel, S. G. A., and Giles Noyes. Nearly all of these horses have been seen here, and all are said to be "good."

The 2:08 pacing class is practically a free-for-all, as some of the horses entered, were in that class here a year ago. The entries are: Vere Capelle, Belle Mahone, Kansas, New Era, Judge Hurt and Jo Ha. At Red Oak Judge Hurt was third in a race with Rudge and Afrite in 2:07, Jo Ha being distanced.

Badge, the phenomenal, who paces under the guidance of a fortune teller, is driven by a graduate of Harvard. He will not be here this year, as "going down the big ring." For a little together, the chances this week's sport are flattering, which but here are no "stakes" in or more or three out of a dozen "class" race will start, but all are horses than which the entries the season, and have been racing all oats, and money "out for winter next town."

THEY ARE LISTED—

Janesville Young People Who

An Outing Enjoying

Rockford Register Gazette covered wagon drawn by four big and containing a dozen young gals and a supply of tents, bedding, and pulled up in Rockford today for a supply of provisions. The young people, hall from Janesville, and a sign on the "bus informs the anxious public that the name of the turnout is the "Oh, Be Joyful Club." They intend to go to Belvidere from Rockford, and then will drive home, camping out by the way. They were a little sunburned, but seemed to be realizing the meaning of their sign without much effort.

## FORTY YEARS

## OF SUFFERING FROM PILES.

Remarkable Cure of Popular Major Dean, of Columbus, Ohio.

People who suffer from that annoying and obstinate disease will be gratified to learn that science has discovered a safe, convenient and simple cure for every form of piles, as the experience of the popular Major Dean, of Columbus, Ohio, amply attests. The Major says: I would like to add my name to the thousands who have been cured by the Pyramid Pile Cure. I know from experience that it is the only remedy on earth that will effectually cure piles; plenty of remedies give relief for a time, but as for a lasting cure I had tried all the salves, lotions, etc., without success. Six boxes of the Pyramid Pile Cure entirely removed all traces of a case of piles of forty years standing.

You may rest assured that the Pyramid Pile Cure has no stauncher advocate than myself.

I feel that it is my duty to allow you to use my name in any way you may see fit, in order that other sufferers may thus be directed to what I feel certain will be speedy relief and cure.

The Pyramid Pile Cure gives instant relief and a permanent cure in all kinds of blind, bleeding, itching piles.

It is absolutely free from opiates, cocaine and similar poisons, so common in pile cures.

The Pyramid Pile Cure is sold by druggists at 50 cents and \$1.00.

A book on cause and cure of Piles will be sent free by addressing the Pyramid Co., Albion, Mich.

## THIS DAY IN HISTORY.

1223—Philip Augustus, king of France and companion of Richard Cœur de Lion in the crusades, died.

1602—Cardinal Mazarin, French statesman, born; died 1681.

1815—Nathaniel Lyon, soldier; born in Ashford, Conn.; killed at Wilson's Creek, Mo., 1861.

1828—Jervis McEntee, American landscape artist, born at Rondout, N. Y.; died there 1881.

1853—The Crystal Palace exhibition opened in New York city. The New York World's fair of 1853 brought together a fine display of American machinery and a variety of foreign products. Among 5,000 exhibitors one-half were foreigners. It suffered by the competition of an exhibition opened in Dublin the same year and also from delay in opening and the inaccessibility of the site. The building represented a Greek cross. It was wholly of glass and iron; length, 355 feet; width, 150. Reservoir square (now Bryant park) at Forty-second street, where the fair was held, lay far beyond the city's outskirts and about 4 miles from the center of population.

1864—Jules Emil Sarutun, noted painter, died in Paris; born 1829.

## COAL EQUAL TO WHEAT.

People attracted by the catchy promises of free silver orators should stop and think what it would mean if congress should pass this measure:

"An act to make one ton of coal equal to one bushel of wheat."

Section 1. Be it enacted by the senate and the house of representatives of the United States of America, and it is hereby enacted, that upon the passage of this act, one ton of coal shall be equal in value to one bushel of wheat."

The Philadelphia Inquirer presents this idea and inquires very naturally how such legislation would be received by the people. They would laugh at it. They would make all manner of fun of the congressmen who had taken part in such nonsense. The man with the ton of coal would still demand its market value and the farmer with the bushel of wheat would get just what he wanted.

There is a demagogic law of supply to any which is paramount is not a legislation and there is not a puncture of child who would and ridicule its with his dart know-nothings shoulders as a set of legislation.

Suppose, again, congress should enact the following:

"An act to establish the ratio between gold and silver."

Section 1. Be it enacted by the senate and the house of representatives of the United States of America, and it is hereby enacted, that upon the passage of this act sixteen ounces of silver shall be equal in value to one ounce of gold."

The market price of silver today is about 30 to 1 when compared with gold. How would it be possible, then, for congress to declare 50 cents to be worth \$1 any more than to declare that a bushel of wheat is equal to a ton of coal?

You cannot make black white.

## ITS PRINCIPLES SACRIFICED.

These are trying days for Wisconsin democrats and democratic papers. Take the Recorder, for example. Hardly an issue has gone out in six months without a stiff-backed gold editorial or a scoring of the "silver fakirs."

And now all this must be swallowed.

Who spoke of crow? Crow would be toothsome and appetizing compared to this dinner of dead hopes and forsaken principles.

Four months hence the fight will be over and the fifty-cent dollar will be buried so deep it can never be resurrected. The Recorder will be for sound money, then, just as it is at heart today, but it will lack the consolation of having lived up to its principles, of having done its best to keep its party in the honest road.

There is a growing belief among sound-money democrats that no more presidential tickets are needed. They appreciate the fact that a vote for McKinley is an honest-money vote that is not thrown away.

Fifty Racine democrats say they can't stand the Bryan-Sewall ticket and will vote for McKinley if the gold democrats make no nomination.

Illinois sound money democrats demand that another convention be held and that a candidate be named whom honest men can support.

General Bragg has grown fat on his week's fight in Chicago, and says he is anxious to head a sound money ticket in Wisconsin.

Even the democratic presidential electors around the country are withdrawing from the ticket.

## "WE'LL COAL TOGETHER."

Story Told by Irving of His Visit to League Island.

Sir Henry Irving, dining with a few gentlemen in this city last week, told a story which should be made public property, says the Baltimore News. It will bear telling in both England and America, and illustrates what the underlying feelings—the natural feelings—of all English-speaking people are toward each other. This interpreter of the thought and feeling of many times spoke with childlike simplicity of his own feelings, and in a way to warm every heart within sound of his voice. Those who listen daily to his words in America or England should have heard "this sweet song," as it came from this gentle, truly knightly nature. They will be glad that our mother tongue has so charming a translator to bear messages to and from across the Atlantic.

He was speaking of his recent visit to Philadelphia, and told how, on Christmas day—the afternoon was so beautiful—he and Miss Terry drove, and, by suggestion, down Broad street, where they were told they could drive 500 miles! They were out for a long drive, so on and on they went, until finally the carriage was stopped by gates across the road. "There was a soldier on guard," said Mr. Irving, "and I asked if we might drive in. It was the League Island navy yard. Soon we came out upon the river bank. There was, of course, no work going on that day; all machinery was still, no sounds except of the voice, no bustling about—a few officers and men, with their families, moving in the sunshine of that lovely afternoon; while before us the noble Delaware as placid as a pond, but in the foreground lay panting in the stream that mighty engine of bloodshed and war, the battleship Indiana.

"An officer sitting near on an old gun, with his children playing by, seemed to recognize us and asked if he might be of any use in showing us about the grounds or aboard the ships. Man of war as he was, his cordial manner and charming talk carried us from one topic to another as we warmed to each other, until finally we were so interested that scarcely could we refuse his request that we should go indoors and have some turkey with the children.

"Well, our talk turned upon the Indiana, and our friend, looking with admiration at her, said: 'Yes, she is a fine specimen, but it is a pity her range of operations is not greater; she cannot carry coal enough; her limit is only five to six days' steaming.' 'Indeed,' said I; 'that is a pity and she could never make the voyage to Europe?' 'No, she can only be used for coast defense.' I remarked: 'Our vessels of small size go many thousand miles from home, sometimes around the world, stopping for coal at the various coaling stations. Cannot you do the same?' 'We would, perhaps,' said he, and a new look came into his eye; 'we might make use of them.' 'Why not?' said I. 'That is their purpose and why should not our navies coal together?' He did not answer. I looked up to meet a smile in his big frank eyes. 'By heaven! we will coal together,' said the captain, 'and then to blazes with the rest of the world.'"

## Boer Manners and Customs.

The daily life of a Boer family is a simple one. At daylight all the members assemble in the main room—the kitchen and eating room, although most of the food is cooked in the open air—where the head of the family reads reverently from the Bible or two from the Bible, mainly from the Old Testament—a simple, by the observer then offered, followed custom. A dog of an ancient Bible the room with red handmaiden enters towel. The guests of water and a and invited to wash first approached, and wipe them on the hands and face of the family is next applied. The head on around the room, untidied and so included in the ceremony, have been substitutes the day's ablutions of family. The morning meal consists of a sometimes beef—cut into large pieces. They all sit around the board while the father says a long grace, and a stranger not familiar with their table manners is apt to be left in the lurch. Each man, for the women eat alone, selects the particular piece of meat that strikes his fancy, and as soon as the "Amen" is spoken sticks his fork into the piece selected. It happens sometimes that two select the same piece; then, the quickest man gets the booty. Dry bread, sometimes butter, and strong black coffee complete the bill of fare, which may stand as a sample meal. It has been urged against the Boer that he is uncleanly, and this cannot be denied; but there is an excuse for this in the scarcity of water.

## A Boy that Killed a Panther.

M. P. Dunham writes to Recreation from Lyons, Mont., to tell about 12-year-old R. K. Hutchins and his 14-year-old sister Lulu. The two killed a mountain lion on the Madison river at Dunham's Bridge. The sister saw the beast and her dog barked at it. The sister went and got her brother, who took his father's gun and went after the big cat. He followed it to a pine thicket, into which he went. He found and shot the creature dead. Just then Dunham came along and helped get the lion out. It was a medium-sized one, 7½ feet long, but plenty big enough to break a heifer's back.

## French Banks of Issue.

The banks of issue of Europe contained \$650,000,000 more at the close of the year 1895 than they did at the end of 1890, without any corresponding increase in their loans or notes of issue. The decrease in the amount of new capital placed in London was over \$2,000,000,000 for the years 1891-5, compared with 1886-90.

## To Protect the Birds.

Washington, July 14.—An appeal for the observance of a "bird day" in the schools throughout the country has been made by the agricultural department. The object is to devote the day, to be set apart once a year or to be combined with Arbor day, to instruction in the value of our native birds and the means of protecting them from wanton destruction. The idea originated with Superintendent of Schools Babcock, of Oil City, Pa. It has been already adopted in two cities—Oil City and Fort Madison, Iowa—and Secretary Morton, the author of Arbor day and indorse of the "bird-day" movement, wants to see the latter extended generally. The department in its published protest against the attacks on birds suggests that it is equally important to teach the best means of preserving the timber, game and fish as to teach students how to develop the agricultural wealth of the state.

## Greenbacker for Bryan.

Lewistown, Me., July 13.—Solon Chase, the originator of the greenback movement of 1874 in Maine, who has been spoken of for president on the populist ticket, has declared for Bryan and Sewell. He advises the populists to indorse them at St. Louis.

## SOLD MEAT TOO LOW AND IS SUFFERING

FRED ISAACSON FACES A \$600  
SHORTAGE.

As Janesville Agent for the Nelson Morris Packing Co. He is Said to Have Made Discounts That Piled Up an Adverse Balance on His Ledger Account.

Unless Fred Isaacson can prove an alibi or a habeas corpus or something legal and convincing, he is likely to see hard times.

A \$600 shortage in his accounts as agent for the Nelson Morris Packing Co., must be explained.

It doesn't look like deliberate dishonesty—more like an effort to draw new trade at any cost.

Whatever the motive, there is \$600 to be replaced, and neither Isaacson nor his relatives have been able to raise the funds.

Isaacson was interested with his father and Tony Dahm in renting Carlson's meat market on North Main street, last winter. They ran it six months—from September 17 to March 17, and then threw up the lease. Mr. Carlson took the market again, and Isaacson became agent for Nelson Morris.

Once a week a Morris Packing Co. car would come here from Chicago with Isaacson in charge. The car also went to Madison, Evansville, Fort Atkinson and Jefferson. Isaacson, a new man for the company, was anxious to sell all the meat he could. He quoted prices that were below the market, it is said and expected to make good the deficiency on other business in the future. No rebates were recognized by the house, however, and a balance against Isaacson began to grow on the ledger. When the sum reached \$600 a settlement was demanded.

Isaacson declared that he had taken no money, that the inducements to new customers were authorized and were for the benefit of the house. The American Surety Company which furnished his bond in the sum of \$2,000 was called on for the \$600, however, and paid it. Isaacson is being held now to answer the charges preferred against him. He has tried to get bonds from Janesville meat men, but has not succeeded.

## MCDONALD'S RESTAURANT CLOSED

Chattelle Mortgage Given to the Bower City Electric Light Co. Is Foreclosed

Con McDonald's new restaurant on East Milwaukee street, was closed by Attorney C. E. Pierce, representing the Bower City Light & Power Company, about 5 o'clock yesterday afternoon. Mr. McDonald owed the company about \$125 for lights and fans. He had not made enough money in his new location to pay running expenses in addition to the cost of installation and was unable to meet the notes given to the Electric Light Company when they came due. Both Mr. McDonald and his wife did all in their power to make the restaurant a success. Patrons were well served and an excellent bill of fare was presented but running expenses were too heavy. Mr. McDonald's plans for the future are unsettled but whatever he undertakes a host of friends will wish him well.

## LIGHTNING FROM A CLEAR SKY

E. D. McGowan's House Struck With No Accompaniment of Thunder.

Lightning struck E. D. McGowan's home on Milton avenue last evening. It demolished a chimney, scattered bricks about the parlor and knocked down Mrs. J. S. McGowan. Others in the neighborhood also felt the shock, among them Mrs. Ezra Dillenbeck of 121 Milton avenue. A peculiar circumstance commented on by many was that the lightning came from a clear sky and was not accompanied by a loud clap of thunder.

## SAVES UP A PUNCH A LONG, LONG TIME

JAMES M'KENNA PLANS TO  
THUMP A FRIEND.

Two Years and Six Months From Now  
He Will Go From Waupun to Beloit, He Says, and Will Hit His Partner, Northway, Very Hard.

For the next two years and a half James McKenna will be a man with a mission. He will take his meals within the stone walls of the state prison at Waupun but his thoughts will fare forth to Beloit and twice a day he will dwell on the complete and workmanlike pounding he intends to give his friend Northway when he gets out.

McKenna's troubles grew out of the stealing of a typewriter by him and the said Northway. Northway turned state's evidence while McKenna stood trial and was convicted. He was brought up this morning in the municipal court and said that he was ready for sentence to be pronounced. Judge Phelps then asked him if he had anything to say and McKenna with tears in his eyes asked for mercy, saying that his father was dead and that he was the support of his poor old mother who lived in St. Paul. He showed the judge several letters which had been written him by his mother, and which might have carried some weight but for the fact that McKenna is an old prison bird.

When a two and a half year sentence had been pronounced, McKenna sat back cheerfully, and remarked that it was a long time for an innocent man to spend in prison.

On his way to the jail he grew more excited, and told a Gazette man that upon his release from prison he would make it his special duty to hunt up Northway, of Beloit, who appeared against him, and punch his face so that even the coroner wouldn't recognize him.

FREE-SILVER. MAN PUT IN JAIL  
Officer Hogan Does His Part to Keep Democrats in Line.

George Welsh is in jail—a victim of gold-bug tyranny.

He stood in front of the post office explaining the free silver plank. Some thought him intoxicated. Others knew that he was more rational than W. J. Bryan ever was in his coolest day.

Just as Welsh's howls for free silver were loudest Officer Hogan came along.

"Free silver you want, do you, George? Now, honestly, isn't it free beer?" said the soulless representative of gold-bug democracy; and the most enthusiastic free silver democrat in town had to go to jail. Judge Phelps gave him a four days' sentence today, and the sheriff promised to lend him a coinage manual to study.

BARBERS INSTALL OFFICERS.

## ALL JANESVILLE MILK IS "GOOD"

The report of the work of W. F. The samples were secured by Mr. Chadwick, Thursday, June 18, his visit being a great surprise. The samples tested as follows:

Ed. McDermott.....3.7

Valentine Bier.....3.2

George Stevens.....3.6

## FIVE CHURCHES JOIN IN A UNION PICNIC

JANESVILLE CHILDREN WILL  
GO TO MONONA.

Both the Methodist Churches and the Baptists, Congregationalists and Presbyterians expect to Charter a Train—Meeting of the Committee Postponed—Low Rates on Railroads

Preparations are being made for a record-breaking picnic of the Janesville churches. It will be held at Lake Monona in the near future, and five of the local churches will take part.

The move has been discussed for some time, but not until lately have things taken shape.

The societies interested are the First M. E., the Presbyterian, Court Street M. E., the Baptist and the Congregational churches. Committees from each have been appointed to make all arrangements for the day's outing. It will be held the first part of next month.

Baskets—a carload of them—will be relied upon for the dinner and the railroads are expected to grant a special rate of less than one fare for the round trip.

The meeting of the arrangement committee which was called for tonight at Whitehead, Matheson & Smith's office, has been postponed.

B. F. Dunwiddie is in Madison arranging for the renting of the Monona assembly grounds.

## FASHIONS IN SKIRTS.

**Diminution in Width—Silk Lined Dresses, How to Make Them.**

Although the very latest skirts have no godets in front or at the sides, those with godets or ripple effect all around have not disappeared, many women having become so accustomed to the fullness that they are reluctant to change it for the closer, flatter style. It is only a question of a very short amount of time, however, the indications all pointing to a very decided diminution. The fullest skirts do not now exceed six yards in circumference, and many are visibly less.

Except in the case of nainsook, duck, linen, gauze and thin silk, all skirts are lined, and the best dressmakers will not listen to the suggestion that anything will do for the lining except silk. The silk must be of good quality, too, as a poor grade has not sufficient body and does not wear well. It is certainly true that an ordinary cambric lining is better than a poor silk one, as a very little friction converts the latter to rags in short order. Dressmakers declare that the sole beauty of the

LACE AND SILK COSTUME.

present skirt is the perfection of its folds and fall, and that only the best lining can secure the proper effect.

The crinoline interlining is now not more than 15 inches in width at its widest and is placed between the lining and the material and sewed at the top to the former. The horsehair fibers should be kept parallel to the lower edge of the skirt if they are to serve the purpose for which they are intended—that of holding the folds in a round shape. The interlining is cut of the same shape as the skirt, the linings being lapped and strengthened by bands of satin, instead of being sewed in.

etch is given of a gown of silk having a ground with blue stripes and plaid bouquets. The godet skirt is over a close bodice of white guipure striped silk lining. The draped belt of gold buck, ornamented in front with a ranged in a, has two large coques are bouffant, light position. The sleeves epaulet of guipure and have a double at the wrist. The frills of the same adorned with coques of striped silk is in front. The hat of blue gold brooch with white lace, pink bow is trimmed butterfly.

## MILLINERY NOT.

**Colored Straws, Tulle, Ribbon and Fusion of Flowers.**

Hats are of medium size, bonnets small and toques a little larger than the were. Straw in the natural tint, black, white and colored, is much worn. Red, blue, violet, yellow, green and pink straws in solid colors and mixtures are seen in a variety of weaves. Straw ribbon and choux are also employed for trimming, as well as feathers, quills, tulle, gauze and lace. An almost unlimited allowance of flowers is granted by fashion. Poppies, pinks, roses, tulips and particularly lilies of the valley are seen in profusion, usually partly draped by tulle. They are worn under the brim behind, tucked next the hair at the sides and erected beside the crown. Some kind of high, slender ornament is often placed at the left side of the hat—two coques, quills or similar light, tall decoration. Small flowers, violets of different shades and others form a round border on little toques, bonnets and hats. The fancy for grouping flowers of diverse species and

STRAW HAT.

colors still continues, even violets and blues being sometimes seen in combination.

A pretty use for the narrow valenciennes lace that is now so fashionable is to sew it along the edge of large meshed yellow net, which is arranged in coquilles down the front of a wrapper. Around the foot is a thick double ruche and at the neck a pierrot collar in which coques of white satin are mingled. It seems rather illogical to smother the throat in full ruffs and collars during warm weather, but they are made in very becoming styles and are extremely fashionable. There is a revived fancy for cutting summer bodices a little low at the neck, in a square, round or heart shape, the slight décolletage being framed in velvet or ribbon arranged in a flat band.

An illustration is given of a hat for out of town wear. It is of saffron yellow straw and has an undulating brim, around the edge of which is a narrow fall of ecru lace. Bunches of geraniums of different tones are arranged around the crown, and at the left side is an aigret of geraniums veiled in white tulle. A torsade of white tulle and white tulle strings complete the trimming.

## A GREAT BOOK FREE.

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his great work, "The People's Common Sense Medical Adviser," he announced that after 600,000 copies had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free.

As the number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, twenty-one (21) one-cent stamps to cover cost of mailing only, and the book will be sent post paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at \$1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

## THE SOUL'S SONG.

A captive in restricted cell confined,  
My spirit soars despite grim walls and bars  
And singeth when it sees the mystic stars.  
And when soft moonbeams, kind, assailant have  
shined,  
As though my cloistered soul they had divined.  
When cooling zephyrs herald day in east,  
And bird throats answer make from tree and vine  
To deeper song my soul doth e'er incline  
And longs at matins to assist as priest,  
Alas, I may not join the vocal feast!  
Rich clustered jewels pass my thought in train,  
Which lose their order ere they reach my tongue;  
Only their shadowed form by me is sung.  
Conceived in pleasure, told, alas, in pain,  
As some wild bird is captured, but when slain!  
Not away in a prison wall of clay  
Shall I my poor restricted soul deplore;  
Beyond the paths ethereal clouds explore,  
When sunset leaves ajar its opal door,  
I'll sing, unfettered, at the dawn of day.  
—Arthur Howard Hall.

## WINNING THE WIDDER

"It grieves me all fired copious," observed Uncle Cy Clay, gravely contemplating the quarter section of pancake poised on the end of his fork, "t' see th' flirtatious carryin' on o' this yere yaller headed schoolmarm an Doc Everett, more especial as she is already spoke for by Jimmy Duval, an doc is knowed t' be th' only husban an father o' an interestin leetle family o' 's own, back in Iowa. But, then—well, well, they's no 'countin' f'r th' actions o' th' female sect, more like of they happ'n's t' be o' th' flirtatious 'rity, an they most all be."

"I'r member one female in p'ticlar," he continued after sending a large swallow of hot coffee in the wake of the departed piece of pancake—"I'r member one th't was shu' nough scandal'ous 'xample o' what cur'us notions th' sect will take an th' onaccountable things they all 'll do."

"'Twas back in Wyoming, in '67—time o' th' Sweetwater 'xcitment, ye know. Well, me an my two pardners 'd be'n minin out yere in California awhile, an was doin well 'nough, but jest's soon's th' rush come along it was 'up stakes' with us, same's a lot o' other fool miners, an off we goes t' th' Sweetwater country, ole Bill Heatwole an me an Ben—Ben Haskins, he was th' youngest o' us, an chockful o' th' ole Harry's ever any boy ever seen. But white? That boy was white, he sho' was, of ever a white man lived. Ef 'e hadn't 'e 'a' be'n yere now, more'n likely."

"At Sweetwater, th' Widder Buck kep' a boardin house, an we all boards with 'er, an we fed high too. But, say, that widder was th' purtiest leetle creature ye ever seen. Wa'n't more'n 24 r 25, an had rosy cheeks an eyes th't 'd just set y'r heart a-thumpin—black's any coal an bright's di'm'nds. Well, she did sho' drive th' boys crazy, an they wa'n't hardly one o' 'em th't wa'n't wild t' be th' landlord o' th't there bean joint. Th' wust o' it all was th't they wa'n't none o' 'em but what, one time r' another, was dead sure he was goin t' s'ceed th' lamented Buck, which was gone b'fore 'bout three years back—f'r of they ever was a sho' nough flirt, 'twas th't same Widder Buck. She'd take up an smile sweet t' ev'ry new man th't showed up, ontell she had 'im on th' string good an hard. Then f'r th' next."

"But w'en our Ben jumps in an begins makin love in real ser'us shape, we all begins to calc'late th't th' bloomin widder is sho' ketched a lot, an reckons they's goin t' be some splicin did in that there camp b'fore Chris'mas—w'en all o' a suddint, along comes a lawyer chap hailin from Salt Lake an puts up 't th' Hotel de Widder Buck, thereby causin a hull lot o' grief in camp, 'cause he hops in immediate an begins makin love t' th' landlady, her makin no 'bjections as anybody knowed of."

"Yere's where Ben makes a dead wrong play; f'r, 'instead of stickin to 'is guns, 'e right off makes a jealous break r' two, causin a row wi' th' widder, quite natural. Then off goes Ben an hires out t' th' gove'm'n't f'r a scout—'bout that time th' U. P. road was bein built, an th' Ogalalla Sioux was makin 'emselves real onpleasant, chargin round an liftin section han's hair an sech like playful leetle tricks. So, 's I says, Ben goes off in a huff an leaves th' runnin t' this yere Salt Lake maverick as calls 'issel' 'Jedge' Sherman an puts an a hull lot o' boggus airs an talks book English. Say, it jest made us sick—it sho' did—th' way that there couple spooned round. They was sev'ral o' th' boys th't jest ached t' git Sherman intuh a argymint an kill 'im up a lot, but they never got no chance—th' Jedge was too foxy, he-was, an too smooth t' get intuh open trouble."

"Jest about Chris'mas time th' Injuns let up a few an lays low, th' weather bein some cold an too many sojers round them parts, an one mornin th' widder gives it out th't she lays t' go over t' Green River an enjoy 'erself a lot—she was f'ever beefin 'bout 'all work an no play.' So, next day, off she an th' Jedge goes, with a greaser named Manuel drivin th' muel team. They'd jest got acrost th' South Fork an was, persomable, quite comfortable an happy, w'en, all o' a suddint, Manuel lets out a screech an jumps out o' th' wagon, hollerin th't Injuns was comin. Sherman looks out an sees a cloud o' dust 'bout two mile away (they wa'n't no snow on th' ground), an he jumps out, too, an in a holy second him an that greaser had them muels cut loose an was aboard 'em hittin the trail real swift f'r Green River. 'Course th' widder screeched after 'em, but, turn round—none whatever. W'y, that tar-nal skunk didn't even wave 'is hand! "Well, th' widder sits an weeps quite copious f'r awhile, an then makes up'er mind th't she don't perpose t' stay there an get scalped—none whatever. So she piles out o' th' wagon an makes a sneak t' git under th' bank an then travels up toward th' dus' cloud, fingerin th' Injuns 'd be most likely t' look down stream instead of up, but

w'en th' Injuns comes clost, high, low an b'hold! They hain't no Injuns at all, but some o' Gen'ral Augur's troops a-drivin in strap stock, an Ben was with 'em."

"Well, o' course they tackles on t' th' widder's wagon an heads f'r Green River, mad a hull lot t' think a male critter callin 'issel' a man 'd run away an leave a woman t' be scalped by Ogalallas—'en they all agrees t' make it dam hot f'r Sherman of he's ketchable. Ben, he didn't say much, but purty quick 'e rides alongside th' sergeant an speaks t' 'im, real quiet, an 'fore long he's a chasin off on a side trail t' git intuh Green River first, 'fore th' troopers come."

"Sherman was in th' barroom o' th' hotel, tellin how the'd be'n ambushed an th' widder killed at th' first shot an how him an th' greaser'd fit an tried t' save 'er body, w'en in walks Ben, 'is face's white's Sherman's an 'is eyes a-blazin. Sherman knowed in a minute th't Ben was after him, an he reached f'r 'is gun, but Ben was too quick, an covered 'im."

"'Hol' on,' says he. 'You dam scoundrel, I ought t' kill ye where ye set, but I hain't no coward, an I fights fair whoever with—even a cur th't runs away an leaves a woman t' be scalped an murdered by Indians.' And he goes on an tells th' crowd about wh't Sherman had did. O' course ev'rybody wanted t' hop in an do s'm' ropework, wi' th' Jedge fingerin as 'It, but Ben wouldn't have it, none at all."

"'No, gents,' says he, 'it don't go. I b'lieves in givin all kinds a fair shake. I gives it out th't I perpose t' git th' gent, but I does it fair, an gives him th' same show as me. Step outside yere, dam ye, an fight!'"

"Sherman begged an pleaded a hull lot, but it didn't go, an after gittin a few swift kicks f'r'm some o' th' gang, out he walks, wobblin lots in th' knees an shakin all over, an lines up in th' street. Cheyenne Pike was master o' ceremonies. 'Twenty paces, gents,' says he. 'Shoot an advance a shootin. Air ye ready? One, two, three—fire!'"

"How 'twas did, nobody ever even guessed. Ben was 's good a shot as they was in Wyoming. Maybe th' Jedge was, too; but he was so shaky they say he c'd hardly hold his gun. Anyways, they was only four r' five shots took—then pore ole Ben throws up 'is han's an drops—Sherman'd got 'im in th' forehead, slick an clean."

"While they was pickin Ben up an carryin 'im inside, Sherman got lost in th' shuffle. Ef he hadn't, he'd 'a' sho' be'n killed. But he sneaks off an lays low som'eres an nobody sees 'im ontell late that day."

"'Bout supper time one o' th' boys comes rushin intuh th' Eagle Bird 'n-side ble frustrated. 'Wha' d'ye think, boys?' says he, w'en he ketched 'is breath. 'Th' Widder Buck and that skunk Sherman is spliced!'"

"O' course th' gang thinks he's joshin an snorts at 'im quite a lot, but he sticks t' th' story. 'Yessir,' he says, 'they was tied up an hour ago b' Jedge Billings. It's straight.'"

"An so it was. Pore Ben wa'n't even stiff, n'r they hadn't got 'im laid out, b'fore that son of a gun an th' widder was hitched duly 'ordin t' law. O' course th' boys shivered 'em, and then give 'em three hours t' leave town, but that didn't do no good. Jedge Sherman had the widder an 'er wad, an pore ole Ben gits nothin but a bang up funeral an six feet o' dirt t' lay in."

"All th' ole gang th't went intuh th' Sweetwater rush r'members all about this yarn; an, say, I'll bet they wa'n't one o' 'em but what's b'en more r' less leary o' widders sence then. They're mighty queer sort o' cattle, these women folks, an I gives 'em up."—Exchange.

## Fashions For Men.

It will not be long now before fashion journals and plates for men are as firmly established as those for women. This, at all events, is the conclusion at which one arrives on reading the long articles which are being introduced into fashion papers under the heading, "For Men," or something similar. The rapidity with which "this sort of man" evolves a special etiquette de toilette for various occasions is truly astounding. For instance: "Patent leather shoes may be correctly worn while in mourning. Men in mourning, when in evening dress, wear ties of black silk, not black satin ones." Again, "Ushers at a wedding should wear gloves of either pearl or white kid, which match exactly those worn by the groom, but it is not necessary that his should be the same as those worn by the bride." And once more: "Men who have grooms should see to it that they do not wear jewelry. It is bad form." One wonders what manner of men they are who must to tell this latter item!—Westminster Gazette.

## The People of Madeira.

They are as harmless as their country. The stranger meets with no snakes, and need not fear mosquitoes, neither has he to take any precautions against being molested in the most out of the way parts. Everywhere civility, politeness and pleasant faces will greet him. The prices asked are grotesque—often five times what will be finally accepted. Some find the absence of fixed prices abroad a great nuisance, but the bargaining in Madeira is so good humored and can be made so amusing that the change of custom in this respect is rather refreshing.

There is one reason that may account for the comparatively few visitors to the island—there are neither golf links nor cycling roads. All Madeira can do is to provide a very limited cricket ground and five miles of fairly level road. Most of the ways near the city are paved with "nubly" stones and are trying to the feet, but in the country this paving ceases.—Good Words.

## YOUR PALATE IS YOUR STOMACH'S CONSCIENCE.

YOUR STOMACH KNOWS WHAT IS GOOD FOR YOU.

Thin people are thin because the food they eat is not absorbed. Reasons, either wrong food, or right food undigested.

Fat, oils and grease will not make any one fat. This is because they are indigestible. Thin people find it hard to digest their food. Fatty foods make it still harder.

Have you ever noticed that almost without exception, thin, pale, dyspeptic, anemic people have an aversion to fat? This is of itself proof enough that such foods are bad for them.

Let your palate tell you what to eat. Nature makes very few mistakes and we should listen to what she says.

Thin people may become fatter, and dyspeptics more comfortable by taking the Shaker Digestive Cordial. It agrees with the weakest stomach. It helps the weak stomach digest other food.

It is fattening and invigorating in itself, for it contains artificially digested food.

The Mount Lebanon Shakers have made a great many interesting discoveries within the past hundred years, but none more important than this ingenious cure for all diseases which are traceable to faulty digestion. A single 10 cent bottle will tell whether it is adapted to your case, and can be had through any druggist.
